## Umbrella academy season 3 release date

It doesn't take a suitcase to know that Netflix's *The Umbrella Academy* is likely to be renewed for a third season. According to Nielsen TV ratings, it was the most streamed show on all platforms in August, followed only by Showtime's *Shameless* and ABC's *Grey's Anatomy*. Netflix hasn't announced *Umbrella Academy* Season 3 yet, but Season 2 sets it up for one perfectly. After stopping the apocalypse again in 1963, the *Umbrella Academy* siblings teleported back to 2019 and discovered their actions had greatly changed the timeline. Their father and Ben are still alive, and a new, super-powered group - *Sparrow Academy* - calls their luxury home. Next, Lila's fellow siblings are out there somewhere with commission suitcases, and Sissy Harlan's son still has Vanya telekinesis powers. Although Season 2 is pretty much captured by the comics the show is based on, these cliffhangers provide a glimpse of what to expect from season three. Let's run down everything we know so far. When will *Umbrella Academy* Season 3 premiere? With the coronavirus pandemic underway, it's hard to know when the third season might premiere. Season 1 debuted in February 2019, and Netflix announced an extension in April 2019. According to *Umbrella Academy* star Tom Hopper's Instagram, filming for Season 2 wrapped in November 2019, but didn't air until July 2020, likely due to the studio's slowing post-production closures. Toronto, where *Umbrella Academy* was filmed, now allows studios to continue filming; considering it takes about a year for a Netflix show to produce a full season, we'll probably see the fall 2021 release for Season 3. *Christos Kalohoridis/Netflix* We can safely assume that all *Umbrella Academy* siblings will be back - and that mainly includes Ben Justin H. Min, who is now fully in the land of life. Colm Feore's Sir Hargreeves is also likely to play a major role as the siblings continue to grapple with their childhood trauma - now coming face-to-face with the man who inflicted it. What we don't know is if the *Umbrella Academy* changes made in 1963 also mean that Grace and Pogo's robots now exist again in 2019 - and if, like Ben, they will be very different from how we remember them. There's also a pretty good chance that Arya's Lila will perform heavily in season three. Showrunner Steve Blackman previously told *Bustle* that we can look forward to seeing [Lila and Diego] try to find each other because she really loves Diego and she really loves him. Other characters introduced in Season 2, such as Allison Ray's husband and Vanya Sissy's love interest, will not return, while *Blackman Handler* Kate Walsh is completely dead this time (though that doesn't rule out potential flashbacks or more time travel). If we did the math, Ray would be a very old man in 2019, Blackman said. Same with Sissy. I think this is the character we met this year, and next season, we'll meet new people. What is *Umbrella Academy* 3 about? Most likely, the third season will explore what it means for the *Umbrella Academy* now that their father is still alive and seems to have left them for his new children. Although members of *Sparrow Academy* appear as allies in the comics, Ben's bad attitude suggests the relationship between the two groups may be antagonistic. Beyond that, we don't yet know where *Blackman* will take the series. Season 2 is very, very loosely based on the second volume of *Umbrella Academy* comics, *Dallas*, and is already interesting in *Sparrow Academy*'s great reveal from the third volume, *Hotel Oblivion*. *Hotel Oblivion* involves siblings traveling to prison in pocket dimensions in the deep space, and in Season 2 there is a brief hint that Hargreeves is interested in something on the dark side of the moon. Does this mean we'll see a team in astronaut gear in Season 3? Maybe. At the very least, maybe we'll finally learn whether Luther's seemingly wasted time on the moon really builds toward something after all. *Umbrella Academy* season 3 may yet be officially announced by Netflix, but it's likely we'll see more Hargreeves siblings experiencing more earth-threatening disasters. The first season was a hit, but the second was even bigger, and will reportedly begin filming later this year. But if you haven't got that far, beware of spoilers. You know, like this: *Handler's* scheme has been thwarted, and Luther, Diego, Allison, Klaus, Five and Vanya head home festively to their usual timelines. Except, unfortunately, they don't. The family may have gone back to the right year, but in an alternate reality where their surrogate father was still alive and kicking. Now, with those shocking cliffhangers echoing in our minds, we can't wait for more. At least, given the popularity the show enjoys, another season seems inevitable. So, while we wait for a lot of new questions that we have to answer, here's everything we know about *The Umbrella Academy* season 3. *Rumor* has it that *The Umbrella Academy* season 3 is already in production. What's On Netflix reported in July that Lauren Otero (*Girl Meets World*) and Elizabeth Padden (*Future Man*) joined the writers' team and the Directors Guild of Canada listed productions starting season 3 in October. It was reported by *Production Weekly* that it would be shot in Toronto, Canada. That's without official confirmation from Netflix that it will even be renewed, but it's highly likely the show will get a third season, even with the cruelty of streamers in mind. No official figures were released to explain the show's popularity, but it was a stalwart in the top ten shows when season 2 launched, and the first season was one of the most watched in 2019. Review aggregator Rotten Tomatoes then gave the second season a critical score and higher than the first, so it should be built on an existing audience. But while the show's actors want to repeat they don't know if it's going to happen yet. Speaking on *IMDb's* *Movies That Changed My Life* podcast, Emmy Raver-Lampman (Number Three), said We honestly waited with a held breath as well. Based on the usual Netflix timeline, we usually have to wait a month after the previous season launches before we hear anything about what will happen next. So, with the normal 18-month gap between our usual Netflix shows, early 2022 makes sense as an initial launch window. We say 'preliminary' because the coronavirus pandemic doesn't seem to be going away anytime soon. Cut to chase: What is it? The third season of Netflix's hit adaptation of *Dark Horse* comics *Gerard Way* and *Gabriel Bá* is about the dysfunctional superheroes of the Hargreeves family. Where can I watch it? Like the previous two seasons of *The Umbrella Academy*, the third season will be available exclusively on Netflix. When can I watch it? If Netflix follows the previous form, chances are ETA for *The Umbrella Academy* season 3 is early 2022. *The Umbrella Academy* season 3 trailer: is there? With season 2 just launching, it's a little early for *The Umbrella Academy* season 3 trailer - in fact, we probably won't see it until the second half of 2021. But don't be surprised if we get some kind of fun video to announce the show's updates - the recap that kicked off season 2 is a typically unique affair, and we expect something in the same vein when confirmation comes. Expect the original Hargreeves siblings to return in *The Umbrella Academy* season 3. (Image credit: Netflix) What can we expect to see in *The Umbrella Academy* season 3? With two world-ending apocalypses already avoided, there's a good chance that some kind of armageddon will be on the agenda in *The Umbrella Academy* season 3. Anything else will feel like an anticlimax. Beyond that, we don't know much, aside from the fact it would plunging the Hargreeves siblings into another alien world. After spending the first season in their home country of 2019 and visiting the early 1960s during season 3, the Hargreeves will now find themselves in a parallel version of their original prize. Although they seem to have overcome many of their problems with each other, however, their lives will not be any easier. In this statement, Sir Reginald Hargreeves - the surrogate father whose death brought the siblings together in season 1 - is still alive. I know you're going to show up eventually, he said when Luther, Diego, Allison, Klaus, Five and Vanya materialize in his luxury home. And it didn't take long for her notoriously cool parenting style to come to the fore, as she revealed that the familiar-looking house isn't your home, and that what they think of as the *Umbrella Academy* is actually *Sparrow Academy*. It turns out Hargreeves Sr. has run the group this super alternative. Usually floating green cubes into one of their numbers will be a grabber's concern, but the bigger surprise is the identity of the group leader -- Ben 'Number Six' Hargreeves, the siblings of the deceased who was bequeathed to the other side in season 2. Turns out he's back intact, Number One on the new team, and not very welcoming newcomers to his house: Dad, who the hell is this bastard? he asked. Don't expect a happy family in *The Umbrella Academy* season 3. One positive for the original Hargreeves clan is the fact that their power seems to be getting stronger - as hinted at by Diego's newly discovered ability to stop many bullets in the season 2 finale of *The End of Something*. They all grew up. I like to think as we progress that their power is also growing, explained showrunner Steve Blackman (reported by *ScreenRant*). They learn new things. They were trained until they were 14 or 15 years old by a very dysfunctional father but then the family exploded before they could finish their training. They may even find in the future that their strength is stronger when they are together. This is one of the remarkable changes to the timeline, so the Temps Commission - now led by the friendly *Potion* - may need to get involved at some point. Indeed, perhaps the Commission will now ask the *Umbrella Academy* to help them recover reality, rather than direct their efforts to eliminate it. Sir Reginald Hargreeves is an alien? Stay forward to finding out more at *The Umbrella Academy* season 3. (Image credit: Netflix) What questions do *The Umbrella Academy* season 3 need to answer? For just two seasons, *The Umbrella Academy* has built a very complex mythology, and that means a lot of questions to answer. We still don't know, for example, why 43 children were suddenly born on October 1, 1989, to mothers who were not pregnant when the day began. Or even what happens to most of those kids. We know about the original seven members of the *Umbrella Academy*, of course, and there are six new members of *Sparrow Academy* - assuming the same children are born on both timelines, and that the floating cube mentioned above is a member of the group. We also know that Lila, who did the runner in *The End of Something*, is one of 43, leaving 29 offspring (possibly superpowers) unaccounted for. Maybe they're waiting to be found by Hargreeves and/or his children. But why didn't Ben recognize his brothers from the old timeline, even though Sir Reginald didn't? And why is Ben no longer in the spirit? He's alive and not a ghost, says Justin H Min (who plays Ben) on the Cable Telecommunications Association for Marketing panel (reported by *Syfy Wire*). Hopefully, if we get season 3, you'll get to see he has a pretty different personality and appearance. Elsewhere, we need to know why this new timeline is similar, but very different, to the original. Could it have something to do with the five calculations made for *The 50-something* himself advanced to 2019 while maintaining his mature form? Or have the new antagonists of the Temps Commission intervened? Does Claire, Allison's daughter long to be reunited with, even in this version of reality? And surely we're not the only ones wondering why the supergroup is now known as *Sparrow Academy* - there may be clues in Netflix's 43 sparrows that strategically lurk throughout season 2 as an epic set of furry Easter eggs. Spoiler alert: There were 43 sparrows hidden throughout Season 2 @*UmbrellaAcad*. I'm sure you can't tell us where they all are. [pic.twitter.com/YFM4WiapBT](https://pic.twitter.com/YFM4WiapBT) August March 6, 2020 Then there are question marks over other major disclosures from the season 2 finale. Since he took off his human mask, we now know that Sir Reginald Hargreeves is some kind of alien. Surely his extra-terrestrial background will play a major role in season 3 - if you want some clues, you can check out the *Dark Horse* comic book series that inspired the TV show. We also assume that the *Majestic 12* shadow organization that wanted President John F. Kennedy dead remains a thorn in Hargreeves' side for the next half century. There are also some key players from 1963 who are likely to be cropping up. Harlan, the boy given telekinetic powers after Vanya saved his life, will now be in his sixties, and probably out there somewhere. Her mother, Sissy, may also be alive - how does Vanya feel about meeting her lover as a much older woman? Beyond that, did the Swedish murderer who survived find a happy new life with cult member Klaus? Will Allison be reunited with her husband Raymond's old version? And could Klaus have his happy ending with Dave? In this alternate version of history, perhaps the love of his life survived Vietnam? As for the cube... Well, it looks like we're going to find out more about his identity. I think [the goal of the cube] will be revealed in Season 3, if we're lucky enough to be picked up, Blackman told *TV Guide*. We'll meet a very different Ben in *The Umbrella Academy* season 3. (Image credit: Netflix) The cast of *Umbrella Academy* season 3: which we expect to return One without saying that six surviving members of the Hargreeves family - Tom Hopper as Number One/Luther, David Castañeda as Number Two/Diego, Emmy Raver-Lampman as Number Three/Allison, Robert Sheehan as Number Four/Klaus, Aidan Gallagher as Number Five and Ellen Page as Number Seven/Vanya - will be back in action. Thanks to a new timeline created in the season 2 finale, it's also a safe bet that Colm Feore will return as *Umbrella Academy* founder Sir Reginald Hargreeves, with Justin H Min as the newly corporeal Ben Hargreeves. It should also return pogo chimpanzee talk to the mix, meaning that Adam Godley will have far more to do than the bit-part he played in the season Lila's eighth brother has qualified in the season 2 finale, seemingly in vain for Ritu Arya not to play the lead role in season 3 - especially since her relationship with Diego needs to be filed under unfinished business. Blackman confirmed a lot to *Syfy Wire*. Wire. unfinished business with the family. So we can safely say, it's not the end of Lila Pitts. While at the Temps Commission, we think Ken Hall will return as Herb's friendly agent, now he's the head of the organization. Season 2 of *Big Bad* the Handler returns from a bullet in the head in season 1, so the apparent character's death in season 2 doesn't necessarily mean Kate Walsh's involvement in the show is over. News of season 3's biggest casting will surely hinge around who will play the adult Harlan, and the five new human members of *The Sparrow Academy* who are strategically hidden in the shadows during *The End of Something*. As for the floating cube... We take into account the Borg spacecraft from *Star Trek* created for the role. *The Boys* season 2: what we know
